MENU

The background of the image is a close-up, high-angle shot of water droplets on a glass surface. The droplets are of various sizes, some are sharp and in focus, while others are blurred in the foreground and background, creating a bokeh effect. The lighting is bright, causing some droplets to appear as bright white highlights against the translucent blue-grey glass. The overall texture is wet and reflective.

WASCHVOLUMEN

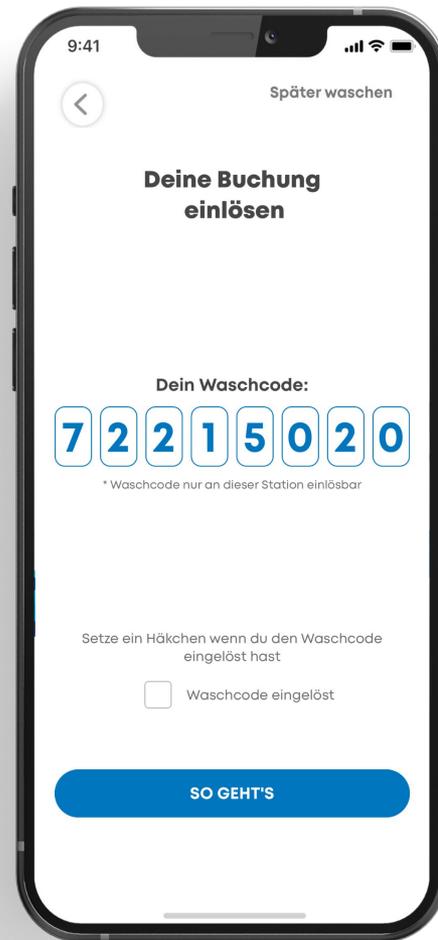

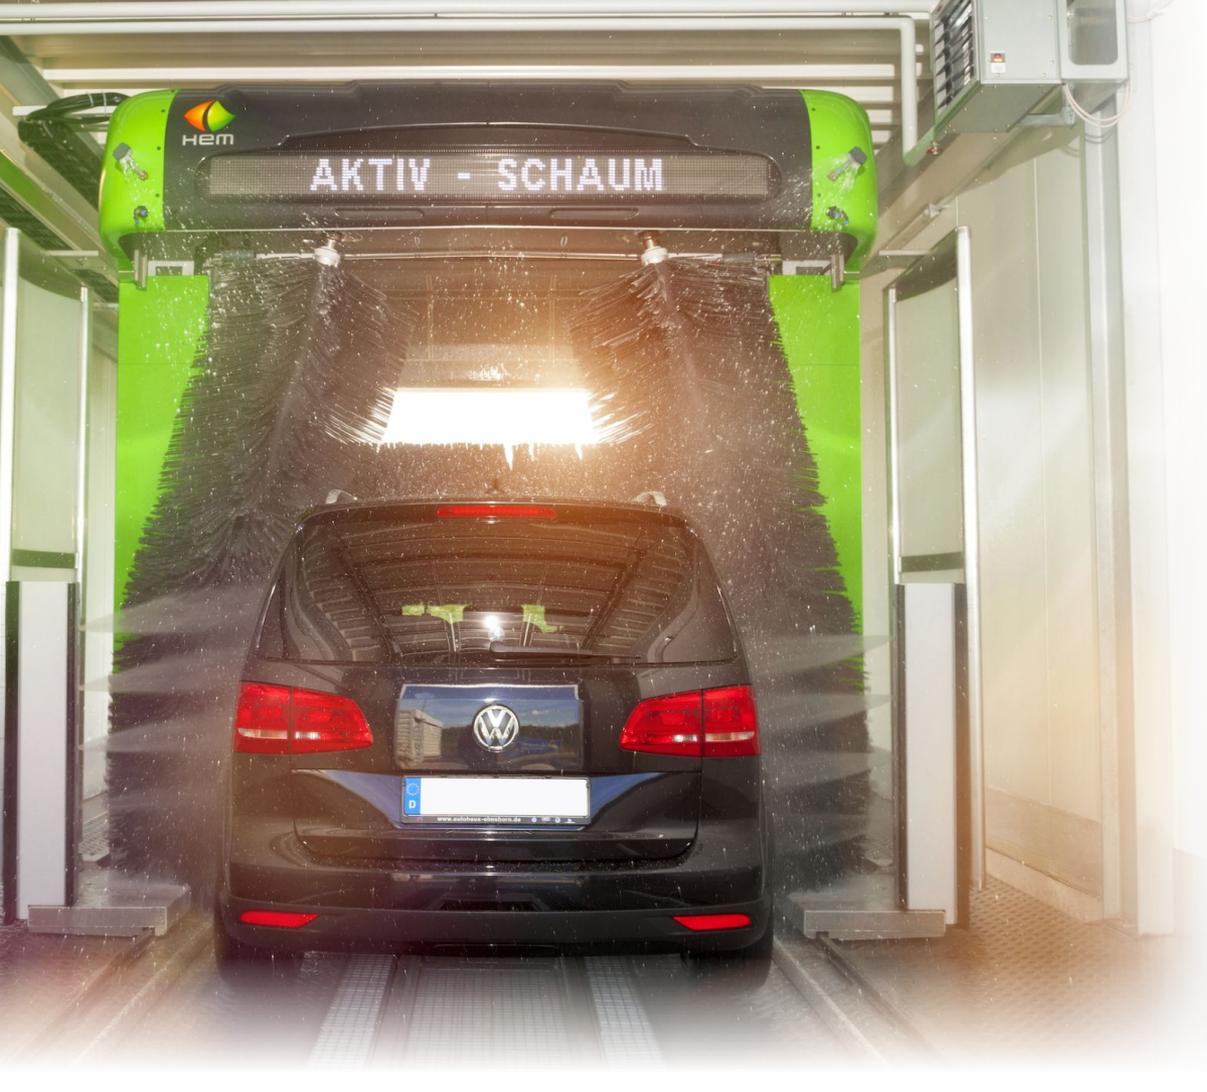

A background image showing a dynamic splash of water with numerous droplets and streaks, creating a sense of movement and freshness. The water is captured in mid-air, with some droplets in sharp focus and others blurred, giving a three-dimensional effect.

A close-up, high-speed photograph of water splashing, creating a dense field of droplets and streaks. The water is captured in mid-air, creating a complex, crystalline pattern of light and shadow. The overall color palette is a range of blues and whites, from deep cerulean to bright, almost white highlights where the water droplets catch the light.
